

Kelly Thompson, BN, MPH

**Program Manager, Global Women's Health
Research Fellow**

Ms. Kelly Thompson is Program Manager, Global Women's Health and a Research Fellow with the Division of Critical Care & Trauma and The Australian Sepsis Network.

She is undertaking a doctorate evaluating the epidemiology, economics and long-term outcomes of patients treated for sepsis in Australian intensive care units.

Kelly is passionate about achieving health equality for populations experiencing the most disadvantage and vulnerability, such as women and girls worldwide.
