

Grace Park, PhD, Director R&D Product Engineering, BD

Grace has over 12 years of experience in medical devices at Becton Dickinson (BD), based in New Jersey, and recently relocating to San Diego, CA, currently as R&D Director for a global infusion disposables business in BD Medical. She holds a Materials Science and Engineering bachelor's degree from University of Florida and a PhD in Biomedical Engineering from Purdue University. As a member of HBA since 2014, Grace enjoys participating as a mentor in the Mentoring Program this year and serves as a member of the San Diego Chapter Advisory Board. She also enjoys singing and playing the piano, and bike riding with her family.
