

Elizabeth Jeffords- BIO 2018

Elizabeth Jeffords is a strategy consultant, angel investor, and global healthcare leader. Prior to her current consulting work in biotech and maternal health, Elizabeth worked in commercial leadership for Genentech & Roche for 17 years. Most recently she served as the Vice President of US Ophthalmology in South San Francisco, General Manager and CEO of Roche Norway in Oslo, and Global Head of the Established Products Business Unit in Basel, Switzerland. Throughout her Genentech career she was passionately involved in people and managerial development initiatives. Prior to Genentech, she worked in bench science at Yale and UCSF, as a strategy consultant, and in business development at a software start-up. She holds a BS in Biology and Management from Yale University and a Masters of Business and Technology as a Fulbright Scholar from the University of New South Wales in Australia. Elizabeth was named the 2009 HBA Genentech Rising Star, and in 2014 was further named one of HBA's Luminaries. She currently volunteers on the HBA San Francisco Chapter Advisory Board and as an Advisor on the Springboard Life Sciences Council.
