

Paul Brown

Global Head of Roche Molecular Solutions

Paul Brown is Global Head of Roche Molecular Solutions (RMS), overseeing the company's Molecular Diagnostics, Tissue Diagnostics and Sequencing Solutions Business Units globally. After 30 years with Roche, Paul brings a distinctive combination of management experience and a proven track record of significant accomplishments across both Pharma and Diagnostic Divisions.

Dr. Brown started his career with Roche in 1986 in the UK and held several leadership roles within Roche's pharmaceutical division, including Vice President of Sales and Marketing in Canada, Lifecycle Leader for Tamiflu and Xenical, and General Manager of Roche Pharma, Sweden, headquartered in Stockholm.

Prior to taking the helm of RMS in January 2016, Dr. Brown was President and CEO of Roche Molecular Diagnostics (RMD) where he substantially grew RMD's core businesses of virology, blood screening and infectious diseases while improving the medical value and increasing the testing efficiency of products in development in the emerging molecular diagnostic areas of microbiology, oncology and genomics.

Dr. Brown holds a PhD in Organic Chemistry from the University of Leicester, UK and was a Post Doctoral Fellow at the California Institute of Technology, USA.
