

Tori Arens

Tori Arens has served as our Vice President, Drug Product Manufacturing since 2017. Prior to joining Aerie, Ms. Arens was Director, Manufacturing at Biogen. In her role at Biogen, she provided direction and oversight to Biogen's parenteral drug product manufacturing site and single-use drug substance manufacturing site. Prior to joining Biogen, Ms. Arens spent 18 years with Eisai in roles of increasing responsibility culminating in Senior Director, Manufacturing. She held previous roles as Director, Technology Transfer and Manufacturing where she led the technology transfer of parenteral drug products to sites in the US, EU and Japan. Ms. Arens began her career in laboratory-based roles supporting the formulation research and manufacturing process development of parenteral formulations. Ms. Arens received her B.A. in Chemistry and M.S. in Pharmaceuticals from the University of North Carolina at Chapel Hill. She has been a past member of HBA and received the HBA Rising Star Award in 2007.

In her spare time, Ms. Arens enjoys spending time with her family including her husband, two children and labradoodle. She also enjoys, cooking, fitness, traveling and is currently studying Italian.
